

CONCEALED FASTENER WALL PANEL  
**BOARD AND BATTEN PANEL - BB75**

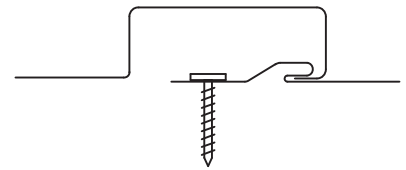

**Board and Batten Panel** is a concealed fastener vertical panel featuring a 2" wide batten. The BB75 panel resembles a wood or fiber cement batten panel, minus the high maintenance upkeep. If you prefer the aesthetics of wood, we offer wood grain finishes as an attractive and durable alternative to real wood. Contact DMI for further information. 4' min. panel length

### Uses & Applications

Product uses include walls, vertical fascia, and as a visual design element giving your building a unique aesthetic appearance.

### Advantages

- Contributes to enhanced visual impact
- The built in fastening strip eliminates the need for clips
- Gives your existing building a clean, contemporary look
- Classic look of board & batten with the added durability of metal

Joint Cross Section

### Performance Tested

- ASTM E330 Uniform Static Air Pressure

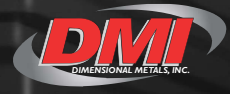

Please consult DMI for applicability of test reports for your project.
