To whom it may concern

Please be advised that DMI has been in business since 1988. We currently have millions of square feet of warranted standing seam roofing and siding systems installed that are performing as required.

DMI uses only domestically manufactured galvalume coated steel in the production of our standing seam roofing and wall systems. DMI systems are produced in our manufacturing plants located in Reynoldsburg, OH & Salisbury, NC using only fixed based roll forming equipment.

If you have any questions do not hesitate to call me.

Sincerely,

A handwritten signature in black ink that reads "Philip L. Gastaldo". The signature is written in a cursive, flowing style.

Philip L. Gastaldo
