

## ZINC WALL APPLICATIONS

RHEINZINK is an architectural-grade zinc with unmatched longevity and elegant appearance, making it an ideal building material. It complies with the strictest environmental standards and is 100% recyclable. For over 40 years, RHEINZINK has been able to claim the title 'sustainable' from 'cradle to grave' and can be recycled infinitely without the loss of its chemical or physical properties.

RHEINZINK is available in prePATINA bright rolled, prePATINA blue-grey and prePATINA graphite-grey.
