

FLAT-LOCK (FLPA) panels are a shingle-style panel system utilizing integrated concealed clips that can be custom fabricated to your exact size specifications. These panels allow a tremendous amount of creativity in design as they can be installed vertically, horizontally or diagonally (diamond pattern) in a wide range of heights and widths. FLAT-LOCK (FLPA) panels can be installed on various building types including those with complicated geometries. Variable joint staggering options further allow design professionals immense flexibility for a truly unique project.

ASSEMBLIES

Flat-Lock Panels can be applied over solid substrates like plywood sheathing.

PRODUCT USES AND APPLICATIONS

Product uses include roof tiles, walls, soffit, vertical fascia, and as a visual design element giving your building a unique aesthetic appearance.

STANDARD PRODUCT OFFERINGS

- 24 ga., 22 ga. Steel, .032, .040 Aluminum,
- 24 ga (.7mm), 22 ga (.8mm), & 20 ga (1mm) RHEINZINK®, 16, and 20 oz. Copper
- Panel Coverage: Varies by design
- Embossing available

Watertightness warranty available for wall applications only.
