

NAIL-STRIP NS10 is a non-structural panel that is snapped together during installation. The product is an integral interlocking system by design that installs in one direction from a given starting point. Nail-Strip works extremely well with basic residential applications.

Uses & Applications

Product uses include roofs with slopes as low as 3:12, vertical fascia, mansards, and wall panels.

Advantages

- Symmetrical Visual Aesthetics - providing a non-directional appearance
- Engineered Snap-Together Design - easy installation
- Continuous Interlocking Seam Cap - no seam disengagement
- Anti-Siphoning Seam Design - prevents water infiltration
- Continuous Roll Formed Lengths - eliminates need for panel lap joints (4' min. panel length)
- Built in Fastening Strip - eliminates need for clips

Note: Watertight Warranty is not available for this profile.

 Aluminum Sheet 2 Year (Substrate)

Since 1988 Dimensional Metals, Inc. (DMI) has specialized in the manufacturing of architectural metal roof and wall panel systems as well as fabricated architectural sheet metal for the construction industry. We are backed by decades of proven metal envelope design, dependable Technical Field Services, and an Engineering Department delivering sustainable solutions. You are sure to find the product that will best enhance your design.
