

Dynaclad® Water Control

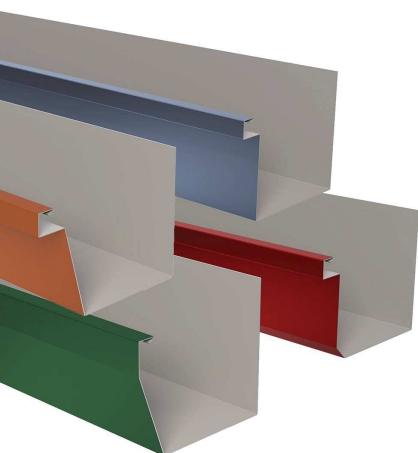

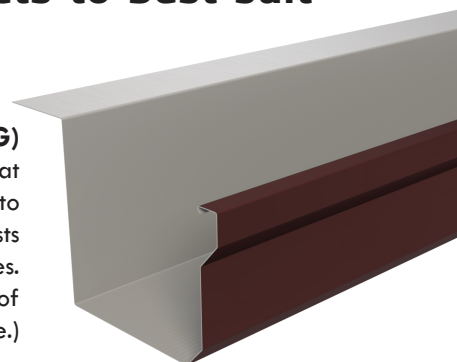

Offering a complete line of Water Control products to best suit your design and drainage needs.

Half-Round Gutter

It provides a unique aesthetic appearance to any building. The smooth inner shape of a half-round gutter reduces the likelihood of corrosion and clogs. Available in 10' lengths.

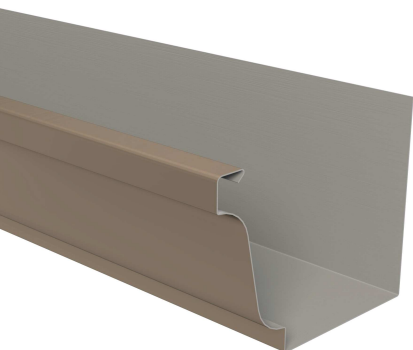

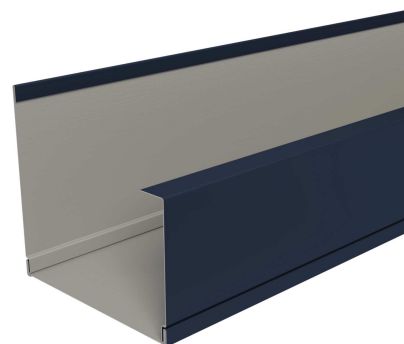

Continuous Gutter (CG)
A factory rollformed gutter that can be produced in lengths up to 53' saving on installation costs and minimizes leak opportunities. (Shown with optional roof flange.)

Box Gutter

Offered in SMACNA A, D, F, G, H and I profiles. Custom profiles and lengths available up to 32'.

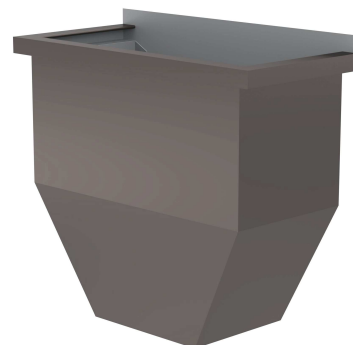

Curved Gutter
A mechanically seamed three piece system designed to complement the curvature of your roof.

K-Style Gutter

Commonly used in residential and some light commercial applications. Available in 5" up to 11" widths and 10' & 20' lengths.

Conductor Head
Custom fabricated to your project's precise dimensions to meet your building's thru-wall drainage and design needs.

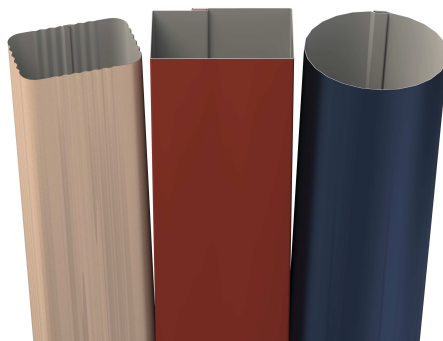

Custom sizes available for Water Control products contact DMI for more information.

Box Downspout
Offered in sizes from 3"x4" to 11" x 11" and available in lengths up to 32'.

Round Downspout
Complements most building designs and is available in 10' & 20' lengths.

Corrugated Downspout
Commonly used in residential and light commercial applications. Available in 10' & 20' lengths.

Product Offering

Available in PVDF coated Galvalume® & Aluminum, HDG-90, Copper, Stainless Steel, and Rheinzink®. Please consult DMI for product specific availability.

Accessories

DMI offers a full line of accessories including internal gutter support brackets, custom under brackets, mitered corners, end caps, splice plates, expansion joints, outlets, downspouts, elbows, downspout straps, and thru-wall scupper.

PROVEN. DEPENDABLE. SUSTAINABLE.
