Dynaclad® Edge

Economical, Reliable and Responsive – a Great Alternative to Self-Fabrication

Utilizing DynaClad® Edge products will allow you to enjoy streamlining your projects and maximizing profits with decreased labor costs. Carefully engineered systems are ANSI/SPRI/FM 4435 ES-1 tested and the full DynaClad Edge System series is backed by a 20-year, 120-mph wind warranty. With over 35-years of Architectural Sheet Metal fabrication experience – DMI's reputation of delivering Proven, Dependable and Sustainable products now delivers the best value and convenience needed in your roof edge system. DMI offers pre-fabricated miters and accessories for all of our edge metal systems.

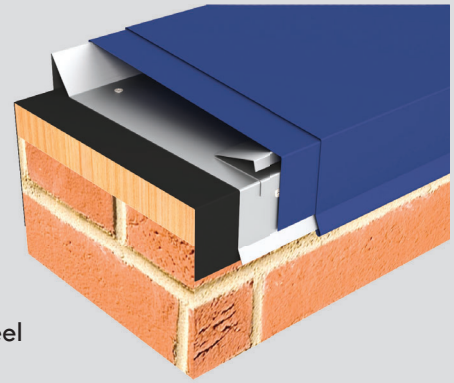

20 YR 120 MPH WIND WARRANTY
